

OIL ONLY ABSORBENT ROLLS

OIL ONLY ROLLS

Built for demanding environments, oil only melt blown material is the modern standard in absorbing petroleum based fluids—efficient, dependable, and engineered to perform. Its soft, cloth-like texture combines durability with flexibility, while maintaining an ideal balance of strength and absorbency. These popular rolls are available in a variety of weights and configurations to meet your specific needs.

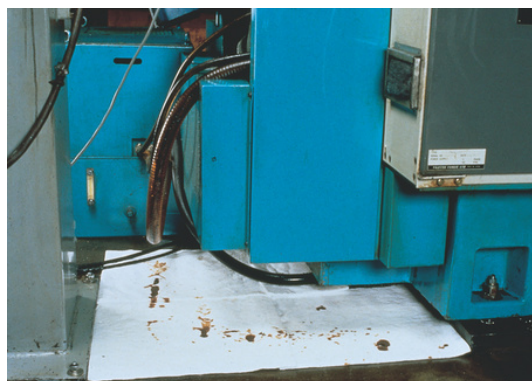

APPLICATIONS

Oil only absorbent material is used to absorb petroleum based fluids while repelling water. Ideal for automotive, marine, industrial plant applications, or anywhere petroleum based fluids are present.
