

UNIVERSAL ABSORBENT ROLLS 30 INCH

30" UNIVERSAL ROLLS

Built for demanding environments, universal melt blown material is the modern standard in absorbing all fluids—efficient, dependable, and engineered to perform. Its soft, cloth-like texture combines durability with flexibility, while maintaining an ideal balance of strength and absorbency. These popular rolls are available in a variety of weights and configurations to meet your specific needs.

APPLICATIONS

Universal absorbent rolls are used to absorb all types of fluids in high-traffic areas, tool cribs and routine industrial and automotive applications. It's widely used for absorbing liquids like oils, water-based fluids, coolants, and mild chemicals.
